

Blaze WARRIOR 10/10

A Trusted IDEX
Fire & Safety Brand

GODIVA

From Innovation to Excellence

Established in 1937, Godiva quickly became a name synonymous with reliability and innovation in the fire-fighting industry.

With a presence in over 100 countries, the company sets industry standards through groundbreaking technological advancements and unparalleled excellence in fire suppression solutions.

Leading the way in fire pump design and manufacture, Godiva produces truck-mounted and portable fire pumps, including the renowned Prima pump. These pumps are trusted by firefighting professionals worldwide for their exceptional performance and reliability.

The innovative SAMFlows system further revolutionizes fire pump operations by automating waterflow management, significantly enhancing efficiency and safety on the fireground.

Godiva continuously innovates to empower firefighters. Their relentless pursuit of excellence enables emergency responders to tackle fires more effectively, ultimately saving lives and protecting communities.

Godiva's unwavering commitment to quality and innovation ensures that they remain at the forefront of the fire-fighting industry, making a positive impact on a global scale.

WHY CHOOSE BLAZE WARRIOR?

Portable pumps are essential tools for fire and rescue services, whether for water relay, flood management or remote firefighting. These tasks place significant demand on both the pump and the operator.

To address these challenges, we have meticulously designed a pump that is easy to manoeuvre and carry, starts and primes reliably, and features simple, user-friendly controls. In addition to our focus on

usability and reliability, we have also considered the limited space available on emergency vehicles. Our pump is compact enough to fit into a typical locker or compartment space, ensuring it is always ready for deployment.

No matter the vehicle or the job at hand, the Blaze Warrior 10/10 is your trusted solution in the most testing of situations.

THE **Blaze** **WARRIOR** **10/10**

CONQUER EVERY CHALLENGE

Meet the Blaze Warrior 10/10 — the latest breakthrough from Godiva, engineered for the evolving demands of today's firefighting and emergency services.

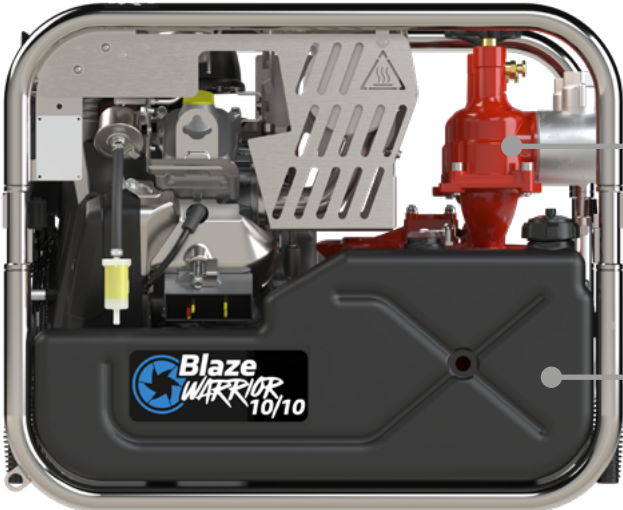

This ultra-lightweight, high-performance portable pump delivers an impressive 1000 L/min at 10 bar, fully compliant with EN1028 / PFPN10-1000 standards — all in a compact design that's significantly smaller, lighter and more compact than comparable units.

Built for rapid deployment and reliable operation in high-pressure situations, the Blaze Warrior 10/10 features an advanced cooling system for uninterrupted performance, together with optimised ergonomics for effortless transport and storage.

Designed with input from front-line professionals, the Blaze Warrior 10/10 sets a new benchmark in portable pump performance — where power meets portability without compromise.

Dimensions:	730 x 545 x 600 mm
Cube:	0,24 m ³
Weight:	125 kg
Rated Performance:	>1,000 lpm @ 10 Bar (FPN 10-1000)
Motor:	40 hp 4-stroke V-twin
Cooling:	Air/oil cooled
Priming:	Piston primer
Starting:	Electric

Delivery valves can be oriented towards the back or sides of the pump

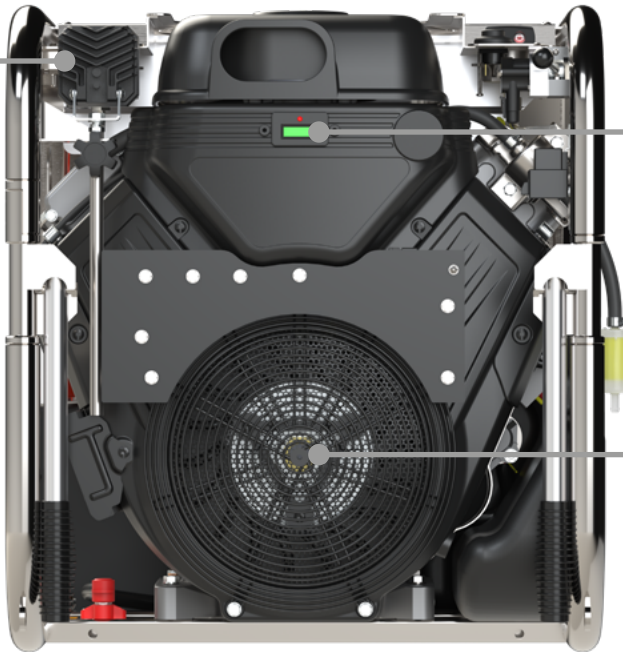

Integral moulded fuel tank with 15.4 L capacity and fuel gauge

DIN tray mounting lugs

Engine hours meter and Malfunction Indicator Light LED

Extendable LED light mast

Powerful fan for forced air cooling

DIN Exhaust Hose compatible

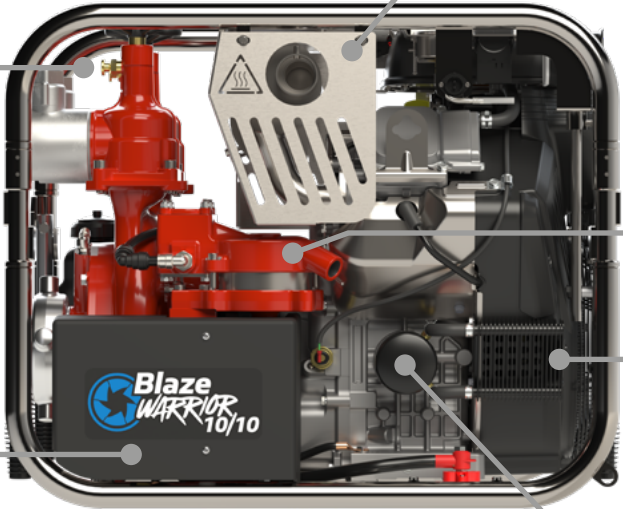

Pressure relief to release delivery hose pressure

Powerful dry piston primer is low maintenance and primes from back of volute for reliable priming

Lithium-ion battery 2 x power, 10 x starts, 5 x longer life than Lead Acid

Oil cooler

Rapid charge capable

Easy access oil filter
